APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion of the waters of an underground source as heretofore granted under Permit 18914, Certificate 5275, is issued subject to the terms and conditions imposed in said Permit 18914, Certificate 5275, and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The total land irrigated under Permit 18654, Certificate 5274; and Permit 72131 and any water of the Walker River Decree and any storage water appurtenant to the place of use shall not exceed 220.2 acres within the described place of use.

These permits for underground water are issued as a supplemental water supply to lands that have surface water rights from the Walker River as set forth in Claim Numbers 84, 108, and 164 of the Walker River Decree C-125, or from storage water provided from the Walker River Irrigation District. The total diversion of water for irrigation from any and all sources shall not exceed the duty of water for this place of use as set forth in the Decree. Underground water shall not be pumped from the wells described in these permits except to the extent necessary to make up the portion of the entitled duty from Decree and storage water in any given year.

(CONTINUED ON PAGE 3)

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.98 cubic feet per second, 880.8 acre-feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before:

March 24, 2007

Proof of completion of work shall be filed on or before:

April 24, 2007

Water must be placed to beneficial use on or before:

March 24, 2009

Proof of the application of water to beneficial use shall be filed on or before:

April 24, 2009

Map in support of proof of beneficial use shall be filed on or before:

April 24, 2009
